September 17, 1987

Dr. Joshua Lederberg
President
The Rockefeller University

Dear Dr. Lederberg:

Last week I was at the 40th birthday party for the NHLBI. At one of the festivities, I met Dr. Crystal and his wife and found them to be quite upset; they claimed that no one at The Rockefeller University had gotten back to them since their trip to Europe in early June. They wanted to know, from an official source, what was happening. Perhaps you could write to Dr. Crystal and explain the situation. He is an influential person in some circles, and it would be best to mollify him in some way.

Sincerely,

Jan L. Breslow, M.D.
Professor
Biochemical Genetics and Metabolism
